EXPERIENCE

UX/UI Designer

COX Communications

— Sep 2020 - Present

- Create Information Architecture, User Flows, Wireframes, and Prototype for SaaS platform that will transform healthcare asset management, increasing utilization rates by 45-50%
- Establish the cohesive Design System Kit for Cox Prosight business to ensure consistency and scalability among components across all applications within the platform
- Moderate usability testing sessions, synthesize results to identify gaps in user experience, and render solutions to rectify issues users encounter.

UX/UI Designer Intern

Boston Children's Hospital

— July 2019 - Dec 2019

- Conducted over 35 interviews for user research and gather feedback from users for an existing solution
- Translated research insights into product ideas and solutions for Cardiac Fitness Application
- Devised UI mockups, and high-fidelity prototypes to communicate design concepts and persuade key stakeholders

Associate Product Designer

DXC Technology

— Mar 2016 - Aug 2018

- Conceptualized an application to automate the testing process which significantly reduced integration testing time by 30%
- Participated in design evaluations and led code-walkthroughs to communicate and present work to client
